## 1<sup>st</sup> GRADE

When Reilly, in first grade, read a book about teeth, she decided to survey one of the facts. Mrs. Markworth made a survey to ask the other classes.

- 1) Which side of their mouth they usually chew on, and
- 2) Whether they are left- or right-handed.

Our results were what the book had stated:

*Most right-handed people chew on the right side of their mouth and **most** left-handed chew on their left side! Interesting, huh!*

(No first-graders were surveyed since most of them have loose teeth!)

Have leftover Halloween candy? If so, please consider bringing it to St. John's. Our 5th grade class will be collecting the candy and making arrangements to donate it to our troops.

*Bring to school no later than November 8th!*
