

Ownership & Acceptable Use Policy High School Prep

Educational Purpose

St. John's is working to provide students and staff with the latest technology tools in education. The goal is to prepare our students for higher education or the world of work in the 21st century. Our students need the skills to be competitive and we will do our best to provide them with those skills. We want each of our students to be able to operate from a level playing field, and with each of our students having a chromebook and wireless internet access, the students are technologically equal. The increased use of technology within our school will also foster leadership, communication, achievement, collaboration, problem solving skills, responsibility and ethical decision making skills. This opportunity is a privilege and must be treated as such by all users.

Chromebook Policy

Each student in grades 6-8 will be given a St. John's domain licensed Chromebook and access to a Google Apps account. Students will not be allowed to take a Chromebook home until the Chromebook Ownership and Acceptable Use policy is signed by the student and the parent.

Chromebooks are not to be left unattended. Students will have their chromebooks with them at all times. Chromebooks will go home with the students each day and they are responsible for bringing them back to school fully charged. If students fail to have it fully charged, they will be without a chromebook for the remainder of the day. The only exception to this will be if a teacher deems it is absolutely necessary for the student to have it for class. **The student will be responsible for replacement in case of theft.**

Chromebooks will retain identical content filtering rules away from the school as the student has while at school. Students are subject to school discipline for inappropriate technology use off campus. Students will comply with the school's technology acceptable use policy.

Each Chromebook is covered by a manufacturer's warranty, which covers manufacturer's defects in materials and workmanship for a period of 1 year from the date of purchase of the machine. **Any physical (carelessness) damage, repairs, or replacements beyond the manufacturer's warranty is the responsibility of the student/parent and full replacement cost (\$220) is charged.** It is strongly encouraged that you purchase a protective sleeve or case to help minimize the chance of damage.

Computer Network & Internet Use Policy

In order for a student to gain access to the school domain and the internet, the individual student must have parental/legal guardian permission. All students/parents must sign an Acceptable Use Agreement. Failure to do so will result in the internet/network being denied.

Students shall have no expectation of privacy when using school email or computer systems. E-mail messages shall be used only for approved educational purposes and appropriate communication. Students must use appropriate language and grammar in all messages. Students are expected to use the system following guidelines approved by teachers or the administration. Students will only be allowed to email within the St. John's domain.

Any email, computer application, information in the domain, or computer system is subject to monitoring by the staff and/or the administration. The school retains the right to duplicate any information created by students in a computer system or on any individual computer. Students who violate these rules, or any other classroom rules relating to computer use are subject to disciplinary action up to and including suspension from school.
